

- The transparent storage tank is removable which makes it easy to clean.
- F. EASY TO CLEAN STORAGE TANK**
It can be mounted in a corner, on a straight wall or table top.
 - E. CONVENIENCE OF COMPACT DESIGN WITH 3 WAY MOUNTING OPTION**
Havells Water Purifiers work effectively in TDS of 2000 mg/L (ppm) and deliver pure and healthy water that taste good.
 - D. TDS REMOVAL OF UP TO 2000 mg/L (ppm)**
Futuristic design, superior dual tone colour finish, compact form and functional display panel, compliment your kitchen décor.
 - C. CONTEMPORARY DESIGN & AESTHETICS**
It also removes organic residues and VOC, which enhances the taste of purified water and results in healthier water.
It balances pH level of purified water and re-mineralizes it by adding naturally occurring essential minerals and salts.
 - B. DUAL MINERAL & BACTERIOSTATIC TASTE ENHANCER CARTRIDGE:**
During Purification Stage 100% water passes through RO Membrane followed by UF membrane removing chemical impurities and microbiological contaminants, thus ensures absolute Safe and Healthy Drinking water.
 - A. ABSOLUTE SAFETY WITH DOUBLE PURIFICATION THROUGH RO & UF:**
KEY FEATURES OF HAVELLS WATER PURIFIER

CAUTION: Before mounting, flush the activated carbon cartridge with the output of sediment cartridge water. Reconnect the outlet pipe of activated carbon cartridge with RO membrane & UF membrane. Now start the machine and flush Dual Mineral & Bacteriostatic taste enhancer cartridge with RO treated water. Check input water pressure. Use booster pump if feed water is less than 0.04 MPa (6 psi) or pressure reducing valve if it is more than 0.21 MPa (30 psi), available at an additional cost. The appliance is intended to be permanently connected to the water mains and not connected by a hose-set.

Place the water purifier on table top position.
OR
For wall mounting: Align the mounting plate at appropriate height with the help of mounting screws. Hang the water purifier on mounting plate.

Please note water purifier is connected to ambient temperature water supply only. Fix the water inlet connector with the help of pipe wrench/plumbing equipment's at selected water point.

- Select an appropriate water connection point.**
1. Diverter Valve 2. Mounting plate with plastic insert and mounting screws, 3. PL 4 pipe-White and blue, 4. Power Adapter
- Open the carton and take out the following items from accessory box for installation:

INSTALLATION INSTRUCTIONS

FUNCTIONS OF SMART INDICATORS:

POWER INDICATOR:
When machine is switched - ON the power indicator will glow solid till the machine switched - OFF.

PURIFICATION PROCESS INDICATOR:
Purification process indicator will glow solid when the purification is on. It will disappear once purification process stop [Tank is full].

TANK FULL INDICATOR:
Tank Full Indicator glows solid when the tank is full.

TECHNICAL SPECIFICATIONS	
PARAMETERS	VALUES
Product dimensions (H x D x W) in cm	(49 x 27.3 x 38.2) cm
Net weight	≈ 7.5 kg
Flow rate*	Up to 15 L/h max.
Storage tank capacity	≈ 7 L
Purification technology	Absolute safety through 100% RO & UF technology
Purification stages	05 stages
Membrane type	Thin film composite RO membrane
Ultra filtration membrane	Hydrophilic polysulfone
Material of construction for plastic components	Food grade
Power rating (max)	40 W
Input voltage	230 V, 50 Hz
TDS reduction**	≥90%
System disinfection efficiency	6, 4, 3 LRV of Bacteria, viruses & cysts at the rate of 15 L/h
Installation type	3 Ways- Corner mount, Straight wall mount & Table top

RECOMMENDED FEED WATER QUALITY	
PARAMETERS	LIMITS
Total dissolved solids	Up to 2000 mg/L (ppm)
Total hardness	Up to 600 mg/L (ppm)
Turbidity***	Up to 5 NTU
Feed water pressure****	0.04 MPa (6 psi) - 0.207 MPa (30 psi)
Feed water temperature	5 °C-45 °C
Iron*****	Less than 0.3 mg/L
Free chlorine	Less than 0.2 mg/L

*Flow Rate may vary depending upon feed water quality, input water pressure, condition of membrane & cartridges

**TDS percentage reduction may vary depending upon type of feed water, feed water pressure & cartridges life

***In case, input turbidity is more than 5 NTU, you need to install pre filter at an additional cost.

****In case, input water pressure goes below 0.04 MPa (6 psi), you need to install external booster pump and if pressure is above 0.21 MPa (30 psi), you need to install pressure reducing valve at an additional cost

*****In case, the iron content in input water is more than 0.3 mg/L (ppm), you need to install IRON X at an additional cost.

DO'S, DON'TS & SAFETY INSTRUCTIONS

DO'S

- Always install the water purifier in a cool, dry and well ventilated place in upright position.
- Storage tank should be cleaned once in every 30 days.
- Proper earthing should be there in the electrical point.
- Clean the storage tank if the purifier is not in use for more than 2 days, before reusing to avoid contamination due to long storage.
- Keep the tank lid closed properly to avoid contamination of water due to exposure to dust, dirt or insects.
- To keep your purifier functioning properly at all times, always use Havells genuine spare parts.
- Call only Havells customer care for any assistance and service requirement.
- Keep the purifier in power on mode to ensure water availability at all times, it is safe & consumes less power in a day.
- If for any reason you are not going to use the water purifier for a long time, for e.g. during a holiday, then make sure that you disconnect the power supply, turn off the input water supply and drain the storage tank.

DON'TS

- Never allow hot water to pass in your water purifier as it is designed to work effectively between input water supply of temperature range between 5 °C to 45 °C
- Never place any heavy, sharp or wet objects on the purifier.
- Do not buy local spare parts and components during service or replacement in case of a breakdown.
- Do not install product in direct sunlight.

SAFETY INSTRUCTIONS

Havells Water Purifier is designed keeping in mind the highest safety standards, but there are certain safety precautions that need to be followed while using the product for its proper functioning.

- Do not move or relocate the purifier when it's running.
- To avoid electric shock, do not pull out or touch the power plug with wet hands.
- Do not use the water purifier if the power cord is damaged or if there's a strange noise, burning smell or smoke. Quickly switch off the power, unplug the cord and call Havells Customer Care.
- Don't open the purifier yourself to clean the cartridges or to replace any parts.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- Never use the discarded water from the purifier tube for drinking. However it can be used for cleaning, washing, mopping, gardening etc.

TROUBLESHOOTING			
	PROBLEMS	CHECKS	SOLUTIONS
Before calling customer care or service engineer, check the following points: 1. Power supply should be ON 2. Inlet water supply should have sufficient pressure/Waterflow	Purified Water taste is bad or unusual	1. Is the tank clean? 2. Is purified water being stored in the tank for a long time? 3. Is the Cartridge replacement due as per the service requirement?	1. Clean the storage tank. 2. Discard the water stored in tank and clean the tank before starting the purification process again. 3. Contact Havells Customer Care to request for the cartridge replacement.
	Filtration time is very long/short or filtration has stopped/too much water is being purified.	1. Is the tap valve open properly? 2. Is water pressure below recommended value? 3. One or more Cartridges may have been clogged or damaged.	1. Open the water inlet valve completely. 2. Contact Havells Customer Care to get the pressure checked and get it resolved. 3. Contact Havells Customer Care to get the cartridges replaced.
	Very less or no water is being flushed out.	1. Check if the flushed water tube (Blue colour pipe) is bent anywhere. 2. Check if the flushed water tube is blocked in any place.	1. Remove the bend in the flush water tube if found. 2. Switch off the purifier and contact Havells Customer Care for proper checking the product.
	Water leakage in any part.	Check if water is coming out from storage tank of the purifier or some other pipe.	Close the water inlet valve, unplug the power cord and then contact Havells Customer Care for a check-up of the product and get it rectified.

WARRANTY TERMS AND CONDITIONS

Havells India Ltd (HIL) offers limited warranty for this water purifier against defect arising from faulty design, workmanship and material subject to the following terms and conditions:

- All electric and functional parts are covered under warranty for 1 year from the date of purchase.
- Consumables including sediment filter, activated carbon cartridge, RO membrane, UF membrane, dual mineralz bacteriostatic taste enhancer cartridge. Are not covered under warranty.
- All consumables and pump carry Havells branded embedded foil (as per Recommendation & important instruction mentioned in content no.9)
- Havells India Limited will offer two preventive maintenance checkups during this one year term of warranty. Only Havells India Limited authorized service personnel will carry out repairs under warranty.
- Consumers shall promptly notify the company about any defect noticed and give the company or authorized personnel/representative adequate opportunity to inspect, test and rectify the defect.
- The company or its representatives are entitled to retain the damaged or defective parts replaced under warranty on free charge basis.
- The company's liability under warranty will be limited only to the concerned product and its defect, which occur under conditions of normal operations in home application, under proper usage and maintenance. It excludes any defect caused due to faulty care, maintenance, repair and alteration to the product or to its part by unauthorized personnel.
