

HAVELLS SYLVANIA CROWNED AGAIN

Concord, part of the global lighting manufacturer Havells Sylvania, has been honoured with the Best Interior Luminaire crown for the second year in succession at the 2011 Lighting Design Awards held in London.

The new Concord Beacon LED range includes the Beacon Muse LED which uses cutting-edge technology and ancient lens principles to create a fully adjustable spotlight. It provides all the benefits of LED technology, without UV/IR radiation and considerably reduced energy consumption.

Commenting on this product, the judges stated, "Concord Beacon has a fantastic optical performance and is set to become a professional spotlight classic." Muse is available in 3000K and 4000K CCT

with a high colour rendering index, typical Ra95 incorporating a discrete on-board dimmer providing control from 100% to 0% and collective track dimming options – which are essential requirements for museums, galleries and high-end retail applications.

As Concord's Design Office Manager Tony Lawrence ex-

plains, "LED technology has allowed us to bring to market a fully versatile spotlight which could not be achieved with halogen.

"We have used our past experience to manage the heat whilst controlling and adjusting the optical performance to give an even beam from a narrow spot to a wide flood in a single product."
