Havells India has introduced a new range of storage and instant geysers Rio and Neo. Havells uses "Penta Shield" technology for all its electrical storage water heaters that provide five-fold safety features with high-precision thermostat and thermal cut-out, multifunction safety with pressure and vacuum release valve and IPX4 level safety for electrical parts from water. The new geyser range also comes with a BEE (Bureau of Energy Efficiency) rating. Rio comes with a glass-lined inner tank to prevent rust and corrosion and sustains high pressure of up to eight bars, making it suitable for working in high-rise buildings. It has a storage capacity of 6 litres. The price is Rs 6,590. Neo has a high wattage of 3kw for instant water heating and can be used in high-rise buildings and for pressure pump installation. It has an instant water heating capacity of 1 litre, and is priced Rs 3,690.
