

## Havells to expand its footprint in Uttarakhand OPENS NEW BRANCH OFFICE IN DOON

**Dehradun,**  
July 21 (IITNS) — Havells India Ltd, a US \$1.2 billion company and one of India's fastest growing electrical and power distribution equipment companies, today inaugurated its new branch office in Dehradun in order to tap vast opportunities in Uttarakhand, which is witnessing huge infrastructural and industrial development. The office was inaugurated by Rakesh Mehrotra, Regional Head, North, Havells India Ltd. Havells has been running a 2000 sq ft office in Dehradun since 2003. The new office is spread over an area of 4500 sq ft. Company has also opened a new godown spread over an area of 18,000 sq ft area. To serve the region better, company has increased its strength from 8 staff members to 23 staff members.

The growing demand of electrical equipment in the wake of construction activities, including housing and commercial space in the region, make this expansion initiative a must for the growth of the company. Anil Gupta, JMD, Havells India Limited, said - "We are continuously expanding our infrastructure and product portfolio to cater to the rapidly changing market dynamics. With this expansion, we believe that we will work towards accelerating our growth in Uttarakhand. It is our endeavor to continue to be recognized as an organization that delivers the quality products for the growing market". Havells India Ltd, alongside its global brands like Cutbush® and Standard, has carved a niche for itself in the electrical industry by manufacturing products ranging from building electrical products, Industrial & Domestic switchgear, cables & wires, Electrical water heaters, Fans, CFL lamps, Luminaires for domestic, commercial & industrial application and module switches.
