Havells India launches new range of fans

► BENGALURU, DHNS: Havells India Limited, on Wednesday, unveiled its range of energy efficient ECOACTIV fans by launching 19 new models under the ceiling, pedestal, wall and ventilator fan category.

The basket covering models based on ECOACTIV technology deliver excellent performance and consume lower energy offering cost savings upto Rs 1900 per annum on electricity bills, the company said in a statement.

Ravindra Singh Negi, President-Electrical Consumer Durables,

Havells India Limited said in a statement, "Aligned with the commitment to provide state-of-the-art innovations and energy-efficient solutions, we are pleased to introduce a new range of energy efficient fans including the industry-first BLDC Table Wall Pedestal range designed to revolutionize the fan market in India."
