

Havells unveils country's first made in India energy efficient Heat pump water heaters

National, 31st January 2024: Havells India Limited, a leading Fast-Moving Electrical Goods (FMEG) company is proud to introduce its latest innovation with the launch of first time Made in India Heat Pump Water heater. Tailored to meet the demands of residential applications, this cutting-edge technology offers up to 75% energy savings, setting new standards in water heating.

Designed with a specific focus on addressing concerns about energy wastage and the adequacy of hot water, the revolutionary Havells Heat Pump offers a solution that allows you a seamless bathing experience, while consuming only ¼ energy cost compared to conventional water heaters.

Speaking on the occasion, **Mr Avneet Singh Gambhir, Vice President Havells India**, “At Havells, our unwavering commitment to energy efficiency and sustainability has always driven our innovative endeavours. Introducing the revolutionary Havells Heat Pump marks a significant milestone as it proudly stands as the first 'made in India' solution. This ground breaking offering not only minimizes energy consumption but also presents our customers with state-of-the-art, eco-friendly technology, elevating their overall quality of life. We take pride in leading the way towards a greener, more sustainable future through our continuous dedication to pioneering solutions that make a positive impact on both the environment and the lives of our valued customers”.

The Havells Heat Pump is your ultimate solution for uninterrupted access to hot water at temperatures of up to 75°C and can give a water yield upto 129 L/H. In eco-mode, we can set the temperature up to 55° C which is the most effective mode for saving electricity. This state-of-the-art compressor ensures high efficiency and low noise. With its internal mechanism, the device offers precise control for quick heating and energy savings. The innovative micro-channel heat exchanger design enhances energy efficiency. A digital controller allows easy temperature adjustments and timer settings. Moreover, the wire controller comes with an easy operation screen, which makes it easy to install.

The water heater also features a Feroglas -coated container designed for hard water areas with a capacity to handle high working pressures (0.8 MPa). Additionally, it includes a multi-function safety valve to prevent pressure build-up and a heavy-duty magnesium anode rod with a steel core for rust and corrosion protection, ensuring tank durability.

The Made in India range comes in 300 litres. The product comes with 7-year warranty on compressor, 5-year warranty on inner container and along with 2-year comprehensive warranty and are available across Havells outlets in India. The high-density PUF insulation in container minimizes heat loss and enhances energy conservation. Plus, its durable construction with a feroglas coating, and ultra-thick, superior -cold-rolled steel plates ensure a longer lifespan and utmost safety for extended use.

Havells is a leading brand in Water Heating solutions, making technically superior water heaters in their own state-of-the-art, ultra-modern, integrated industry 4.0 compliant manufacturing plant in Neemrana, which has a capacity to make 14 lakhs water heaters annually.

ABOUT HAVELLS

Havells India Ltd is a leading FMEG (Fast moving electrical goods) and a consumer durable company, with a presence across 60 countries. Its product range includes Industrial & Domestic electrical goods and consumer durables. Havells owns prestigious brands like Havells, Lloyd, Crabtree, Standard and Reo.
